

Item or resource: _____

Identifying Climate Vulnerability and Potential Adaptation Strategies

Climate Condition	What is the potential impact? (Consider cultural, natural, social, economic, and other impacts)	What's currently being done to prepare?	What additional actions could be taken?	Which departments, divisions, individuals, groups, or agencies need to be involved?
Longer and hotter summer heatwaves				
Increased frequency/severity of droughts				
Decreased snowpack and streamflow				
Increased frequency/severity of fire				
Increased insect outbreaks
